Scope of Services

We do one thing and one thing only: recruit experienced and motivated investigators for sponsors and CROs.

Instant Access to 27,000+ US & 1,200+ Canadian Investigators

ILS has built a comprehensive, proprietary database of 27,000+ experienced and motivated U.S. and 1,200+ experienced and motivated Canadian investigators in all medical specialties and practice settings. Based on your specifications, we instantly target and email appropriate investigators to determine interest in your study. Your company is not identified and investigators, who are interested and have the current capacity for your study, sign up to have their CV submitted to you. You review the CV and decide who to contact.

Finding experienced investigators for clinical trials remains one of the greatest obstacles to rapidly launching studies. ILS is an informatics driven company whose proprietary system and expanded investigator database now contains over 27,000 experienced U.S. and Canadian investigators in all medical specialties and practice settings.

Investigators are targeted by multiple criteria including medical specialty, research experience, practice setting and location. Instant email broadcasts rapidly identify interested investigators with current capacity for additional trials matching client specifications. Site Questionnaires are sent to further qualify investigators.

Save Time and Effort

ILS eliminates weeks and months of frustrating work by your project teams playing phone tag with investigators only to find them unable to take your project due to other commitments.

Free to CROs and Sponsors

Investigators pay our fees if you use them and our services are free to CROs and Sponsors.

Experienced & Motivated Investigators

The key to ILS's success and repeat business from sponsors and CROs is that investigators who sign up through ILS are experienced and extra motivated to perform. Investigators who sign up through ILS typically have 10-15 years of experience and are extra motivated to perform for you since they have agreed to pay ILS our fee when the study starts. Our study gets top priority at the site.

Sponsors & CROs Using ILS

Since 2001, 436 Sponsors and CROs have used ILS to recruit over 10,000 investigators for 1031 protocols including difficult to place projects. Remember, you review the CVs of experienced and motivated investigators interested in your project and decide who to contact. [No cost, risk FREE.](#)

Process

4 Simple Steps

1. Call ILS and describe your study.
2. ILS emails appropriate investigators about your study (you are not identified).
3. ILS sends you the CVs of interested & motivated investigators.
4. You decide who to contact and deal directly with the investigator.

It's that simple. And it's FREE. Investigators pay our fees.

Call ILS today!

Therapeutic Experience

ILS has recruited clinical investigators in the following therapeutic areas:

Abdominal Infection	Diabetic Neuropathy	Opioid Bowel Dysfunction
Abdominal Pain	Dialysis	Oral Contraceptive
Abdominal Surgical Pain	Diarrhea	Orthopedic Pain
Abdominal Wound Healing	Down Syndrome	Orthostatic Hypotension
Acne	Dry Eye	Osteoarthritis
Acromegaly	Dx Acute MI	Otolaryngology Surgical Pain
Actinic Keratosis	Dx Colon Cancer	Ovarian Cancer
Acute Asthma	Dx HIV	Pancreatic Cancer
Acute Coronary Syndrome	Dx Pul. Embolism & DVT	Parkinson's Disease
Acute MI	Dyskinesia	Pediatric Allergy
Acute Respiratory Distress	Early Renal Insufficiency	Pediatric Asthma
Acute Sinusitis	Encephalitis	Pediatric Atopic Dermatitis
Acute Stroke	Endocarditis	Pediatric Bipolar Disorder
Acute Urinary Retention	Endometriosis	Pediatric Bronchiolitis
Adolescent Ankle Sprain	Epilepsy	Pediatric Depression
Adolescent Panic	ED	Pediatric Diabetes
Adolescent Psoriasis	Eosinophilic Asthma	Pediatric Emergency Asthma
Adolescent Schizophrenia	Esophageal Cancer	Pediatric Epilepsy
Advanced Breast Cancer	FSAD	Pediatric GERD
Agitation & Bipolar Disorder	Femur Fracture	Pediatric Chemo Nausea
Agitation & Schizophrenia	Fibrocystic Breast Disease	Pediatric HIV
Allergy	Flu	Pediatric Hypertension
Alzheimer's Disease	Gastroparesis	Pediatric Migraine
Acute Myelogenous Leukemia	Gaucher's Disease	Pediatric Neurogenic Bladder
Anemia in Chemotherapy	Genital Herpes	Pediatric Otitis Media
Anemia & COPD	GERD	Pediatric Post Op Nausea
Anesthesia	Glucose Monitor	Pediatric RSV
Angina	Gout	Pediatric Ulcerative Colitis
Ankle Sprain	Graft vs. Host Disease	Pediatric Vaccine
Ascites	Gynecologic Adhesions	Peripheral Artery Bypass
Asthma	Gynecologic Cancer	Peripheral Artery Disease
Atherosclerosis	Head Lice	Peripheral Artery Hemostasis
Athlete's Foot	Head & Neck Cancer	PMS
Atopic Dermatitis	Hemodialysis	Pneumonia
Atrial Fibrillation	Hemostasis	Post Herpetic Pain
Autism	Hepatic Surgery	Post Hysterectomy Pain
AV Fistula	Hepatitis A Vaccine	Post Op Ileus
AV Graft Hemostasis	Hepatitis B Vaccine	Post Op Nausea
B-cell Lymphoblastic Leukemia	Hepatitis C	Post Op Pain
Bipolar Disorder	Hepatocellular Cancer	Post Renal Transplant
Bladder CA	Hereditary Antithrombin Deficit	Pressure Ulcer
Bone Loss	Herpes Labialis	Pre-Surgical Sedation
BPH	Hip Arthroplasty	Primary Biliary Cirrhosis

Brain Cancer	Hip Fracture	Prostate Cancer
Break Thru Pain	HIV	Psoriasis
Breast Augmentation	Hot Flashes	Psychotic Depression
Breast Cancer	HPV Assay	Pul. Arterial Hypertension
Bronchiectasis	Humerus Fracture	Radial Fracture
Bronchiolitis	Hyperlipidemia	Renal Cell Carcinoma
Bunion Pain	Hypertension	Rheumatoid Arthritis
CABG	Hypertension/Hyperlipidemia	Sarcopenia
Cachexia	Hyponatremia	Schizophrenia
Cancer Pain	Hysterectomy Pain	Sciatica
Cancer PK	IBS	Scleroderma
Cardiac Electrophysiology	ICU sedation	Sepsis
Catheter Infection	Interstitial Cystitis	Septic Shock
Cartilage Repair	Itradialytic Hypotension	Skin & Soft Tissue Infection
C dif. Colitis	Invasive Fungal Infection	Small Pox Vaccine
Cellulitis	Iron Deficiency	Solid Tumor
Cervical Ripening	Ischemic Stroke	Spinal Fusion
Chemo Nausea	Knee Cartilage Repair	Spinal Surgery
Chemo Protection Breast CA	Knee OA	Staph Infection
Chronic Back Pain	Knee Replacement	STEMI
Chronic Kidney Disease	Leukemia	Stroke Prevention
Chronic Lymphocytic Leukemia	Liver Disease	Surgical Hemostasis
Chronic Myelogenous Leukemia	Low Back Pain	Surgical Infections
Chronic Rhinosinusitis Surgery	Lumbar Joint Replacement	T-cell Leukemia
Chronic Sinusitis	Lupus	Thrombocythemia
Chronic Stable Angina	Lymphoma	Thrombocytopenia
Cisplatin Nausea	Lyme's Disease	Tibial Fracture
Clozapine Agranulocytosis	Mad Cow Disease	Total Knee Replacement
Cognitive Rehab	Male Hot Flash	Ulcerative Colitis
Colorectal Cancer	Melanoma	Uterine Adhesions
Colorectal Cancer Pain	Meningitis	Vaginal Atrophy
Community Acquired Pneumonia	Metabolic Syndrome	Vaginitis
Comp. SST Infection	Metastatic Breast Cancer	Varicose Veins
Comp. Urinary Tract Inf.	Migraine Headache	Venous Catheter
Conjunctivitis	MRSA Infection	Venous Ulcer
Congestive Heart Failure	Mucositis	Viral Conjunctivitis
Constipation	Multiple Sclerosis	Venous Leg Ulcer
COPD	Myasthenia Gravis	VTE
Coronary Artery Disease	Mycosis	VTI Induction
Crohn's Disease	Narcolepsy	Women's Health
Cushing's Disease	Neonatal Candidiasis	Wound Care
Cutaneous Lymphoma	Neutropenia	Xerostomia
Dental Pain	Non Hodgkin's Lymphoma	Healthy Volunteer
Deep Vein Thrombosis	Noonan Syndrome	
Depression	Nosocomial Pneumonia	
Dermatitis	NSCLC	

Diabetes Type I & II	Nutrition	
Diabetic Foot Ulcer	Obstructive Sleep Apnea	
Diabetic Neuropathy	Opioid Addiction	

ILS recruits clinical investigators for routine as well as difficult to place clinical trials.

Partial List of Sponsors and CROs Using ILS

3M Pharmaceuticals	Ceregenics	Healthcare Products	MTRA	Sanguine
Aastrom	Ceregene	HealthPoint	Myriad Genetics	Sanofi
Abbott	Chiltern	Health Decisions	Naurex	Schering

Management

Joe A. Bollert, PhD, President

Dr. Bollert, has over forty years of clinical research experience, first with the Upjohn Company and then as a leader for 20 years in the CRO industry with the Institute for Biological Research Development (IBRD).

He founded the innovative investigator recruiting service known as ILS in 2001 and since then ILS has worked with 436 pharmaceutical, biotech, medical device, diagnostic and CRO companies to recruit investigators.

Noemi Suazo, Director of Operations

Mrs. Suazo has 15 years of medical and clinical research experience working in physician offices and in site recruitment with ILS since 2004. Her responsibilities include managing the recruiting relationship between investigators and sponsors and CROs.

Summary

Free and instant access to 27,000+ US and 1,200+ Canadian investigators in all medical specialties and practice settings can accelerate investigator recruiting on your next project.

Contact ILS today to rapidly recruit outstanding investigators for your next clinical trial.

(541) 633-7540 or jbollert@invlocate.com
